ABOUT INTI

At INTI, our mission is to bridge the needs of tomorrow through the competencies our students gain today, empowering them to become the leaders, innovators and game changers of the future. We are committed towards ensuring our students gain the competencies needed for the workplace of the future, and to work alongside the digital transformations driving today's global businesses in the Fourth Industrial Revolution.

Through our innovative teaching and learning and extensive industry partnerships, we empower our students with the ability to work with smart machines, to process and analyse data for better decision-making, to learn about technologies that impact businesses and manufacturing processes, and to develop professional skills such as adaptability, working with multidisciplinary teams, problem-solving, and a thirst for lifelong learning.

By inspiring our students to explore their passions and discover their true potential through the right skills, tools and experiences, we continue to be a force of change in revolutionising education. Our commitment is to ensure exceptional graduate outcomes, and to transform our students into the dynamic leaders of the future – **ones who will lead us in the Fourth Industrial Revolution, and beyond.**

YOUR FUTURE BUILT TODAY

4

campuses across Malaysia

35+

years of empowering young minds

13,000+

students currently served

1,000+

employees nationwide

80,000+

graduates whose lives we have touched

2023 QS WORLD UNIVERSITY RANKINGS: ASIA

Awarded **FIVE STARS** in the **QS STARS RATING**, achieving top marks in the categories of Online Learning, Employability, Facilities and Inclusiveness

INTI GRADUATE EMPLOYABILITY SURVEY 2017 VALIDATED BY BDO

99%

of INTI graduates are employed **within 6 MONTHS** of graduation

91%

of INTI graduates are **PAID HIGHER** than the market minimum average

60%

of INTI graduates **get job offers BEFORE** they graduate

SUCCEED GLOBALLY WITH THE INTI EDGE

THE INTI EDGE

We Are INTERNATIONAL

Our internationally recognised education will enrich you with the right skills and attributes to excel at whatever you do and wherever you go.

WORLD RENOWNED COLLABORATIONS WITH PRESTIGIOUS UNIVERSITIES

INTI offers exclusive franchise degrees and dual award degree programmes in partnership with some of the world's highest rated universities. These partnerships help to enhance your academic credentials and offer you access to some of the most prestigious institutions of higher learning globally.

INNOVATIVE Teaching & Learning

INTI integrates an array of proven approaches to teaching combined with revolutionary applications of technology in the classroom such as the innovative Canvas Learning Management System.

CANVAS LMS

Canvas is INTI's online Learning Management System (LMS), where a variety of built-in tools can be customised to provide students and lecturers with unique and accessible teaching and learning experiences.

This technologically advanced and user-friendly system provides an excellent platform to build interconnected and collaborative digital teaching and learning opportunities that foster a holistic educational experience. With Canvas desktop and mobile versions, learning can take place anywhere and at any time.

Supplementary Learning and Assessment Tools Used:

- RAPTIVITY: Interactive Building Software ranging from games, quizzes, simulations, presentations and more
- iSTUDIO: Personal Presentation System for real-time video production role-play

INDIVIDUAL Development

INTI endeavours to include practical experiences in every programme it offers. From practical workshops taught by local and international guest lecturers and industry practitioners who share the ins and outs of the working world, to hands-on practical projects initiated by potential employers.

THE MENTOR-MENTEE PROGRAMME
Expand your social circles and future horizons

PARENT / TEACHER MEETINGS
Get valuable feedback and grow

LINKEDIN
Building your personal brand and your link to a world of opportunities

COLLABORATION WITH INDUSTRY PARTNERS

Over the years, INTI has cultivated a strong engagement with multinational companies and large local organisations on diverse platforms to foster innovation curricula and develop future-ready graduates.

and many more

The platforms include:

- Industry Awards / Scholarships
- Employer Projects
- Boot Camps and Career Workshops
- INTI Leadership Series
- Faculty Industry Attachments
- Industry Advisory Boards
- Industry Skills Certifications
- Employer Centric Curricula
- Internships and Job Placements
- Coaching and Mentoring

FULFILL YOUR AMERICAN DREAM

The list of the world's Top 100 universities is easily dominated by academic institutions located in the United States. The world's best universities, including Ivy League institutions like Harvard, Yale, Columbia and Princeton in the US have produced some of the world's most amazing advances in science, medicine, the arts and more and have trained many of the world's greatest minds. Many US graduates, thanks to the knowledge and experiences gained in the finest university system in the world have gone on to be leaders of industry and nations. It is no surprise that over one third of the 1.2 million undergraduates studying outside their home countries are furthering their education in the US. With the INTI American University Program (AUP), you will be equipped with the skills, knowledge and exposure you need to maximize your potential and succeed in achieving your dreams.

1. NATIONAL RECOGNITION BY THE US GOVERNMENT

INTI is the only institution of higher learning to receive the Certification of Appreciation for Achievement in Trade by the US Department of Commerce which is a testament of the INTI AUP program's quality and credibility. INTI AUP is also fully accredited by the Malaysian Qualification Agency (MQA) and approved by the Ministry of Higher Education (MOHE).

As the most established and recognized pathway to higher education in the US, INTI AUP has also established the Center for American Education (CAE) which constantly strives to develop the best options for scholarships, universities and degree majors for INTI students.

2. LARGEST ALUMNI NETWORK IN MALAYSIA

INTI AUP is the most established academic program in Malaysia for students seeking higher education in the US. Since its inception over 35 years ago, INTI AUP has successfully transferred more than 16,000 students to the US and counting. Joining INTI AUP means joining a legacy of excellence as well as maximizing the opportunity for entrance to some of the greatest universities in the world.

3. CHOOSE FROM OVER 300 UNIVERSITIES IN THE US

INTI AUP is the gateway to over 300 universities in both the US and Canada that offer specialties in almost every conceivable course and academic field. INTI AUP requires 4 years for completion and students have the option to transfer at Year 2, 3 or 4 to selected partner universities. Optionally, students may also complete a 4-year program in Malaysia at INTI in conjunction with the Southern New Hampshire University (SNHU).

4. SUPERB UNIVERSITY PLACEMENT SERVICES

Planning to study in a foreign country can be a daunting prospect. Our dedicated University Placement Services team helps you in every way possible to make the transition by offering assistance with university and visa applications, special pre-departure briefings on living in the US and more. There is also an extensive collection of resources for university research that allows you to make informed choices including program guides, tuition fees, cost of living information, university prospectus, ranking details and more.

5. COMPREHENSIVE STUDY PLANS

INTI AUP offers one of the most extensive equivalency tables and articulation agreements with American universities in Malaysia with over 150 approved tables, allowing students at INTI AUP to transfer credits smoothly over to their selected university. The full list of equivalency tables is available at the INTI University Placement Library.

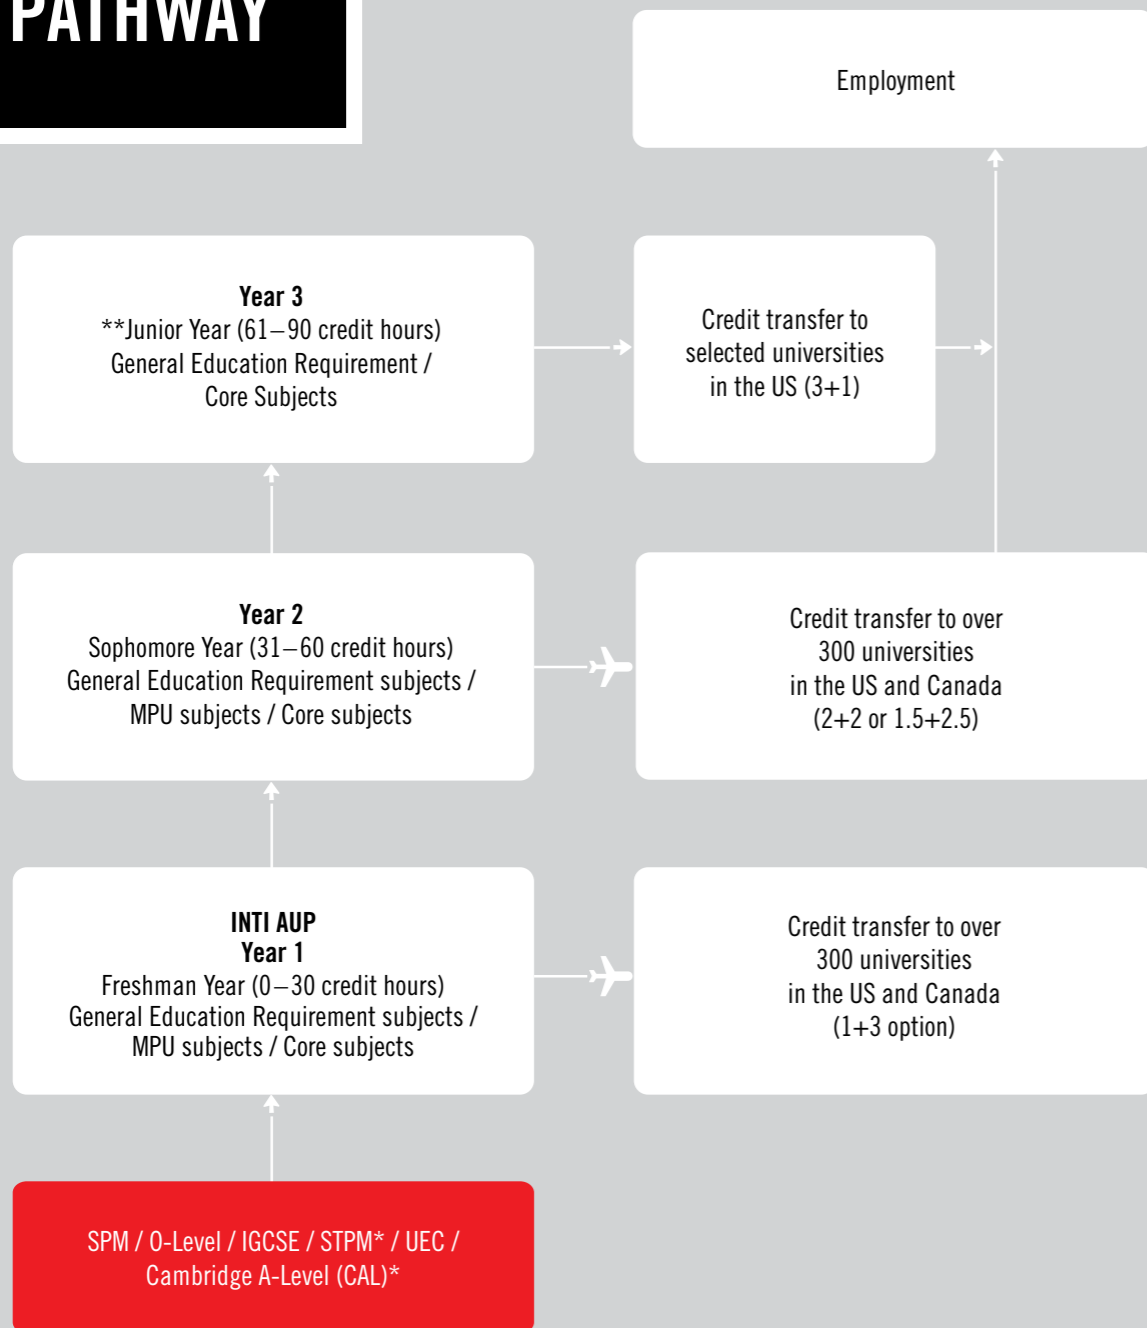

6. EXCLUSIVE SCHOLARSHIPS FOR ELIGIBLE STUDENTS

Because of INTI AUP's close ties to American universities, students enrolled in AUP have the privilege of being eligible for exclusive scholarships that are awarded by American partner universities. From 2021 to 2022 alone US\$530,923.00 worth of scholarships have been disbursed to INTI AUP students.

7. POPULAR MAJORS

Actuarial Science, Biotechnology, Business, Cyber Security, Engineering, IT, Mass Communication, Psychology and many more.

INTI AUP PATHWAY

**Exemptions will be given on a case-by-case basis for Cambridge A-Level (CAL) and STPM students.
**Selected majors and universities only.
Please check with INTI counselors for more information.*

ENTRY REQUIREMENTS

AMERICAN DEGREE TRANSFER PROGRAM (AUP)

One of the following examinations or their equivalents:

SPM / O-LEVEL:
Pass with 5 credits

Unified Examination Certificate (UEC) :
5Bs

STPM / A-LEVEL:
2 Passes or CGPA 2.0

FOUNDATION:
Having successfully completed recognised
Foundation Program

SACE INTERNATIONAL:
(formerly known as South Australian
Matriculation - SAM)
5 subjects with ATAR of 55 (equivalent to
TER of 55)

HIGH SCHOOL CERTIFICATE (HSC):
Minimum 10 units with ATAR 55,
no subjects below 50

CANADIAN PRE-UNIVERSITY:
Pass 6 subjects with average 55

AUSTRALIAN YEAR 12:
Average 55

NEW SOUTH WALES HIGHER SCHOOL
CERTIFICATE:
Pass in 5 subjects

DIPLOMA:
Having successfully completed recognised
Diplomas with CGPA 2.0

Note:
Any other qualifications, please contact CAE
Office

English Language requirement:

Student who failed to obtain a credit in
SPM/O-Levels/UEC English or IELTS band
below 5.5 are required to sit for English
Placement Test (EPT). Failing to pass
EPT, student is required to take ENL099
(Fundamentals of Writing) and up to 2 MPU
courses upon advice from Head of Program.
Student is required to pass ENL099 before
enrolling for AUP courses. ENL099 credits
will not be counted for credit transfer.

4+0 SOUTHERN NEW HAMPSHIRE UNIVERSITY DEGREE

SPM / O-LEVEL:
Pass with 5 Credits includes a pass in
Mathematics and a credit in English at SPM
level or any equivalent qualification.
FOR PSYCHOLOGY MAJOR:
Pass with 5 Credits (including credit in
Mathematics, Science and English)

STPM / A-LEVEL:
Pass with TWO (2) full passes and a pass in
Mathematics and a credit in English at SPM
level or any equivalent qualification.

FOUNDATION:
Having successfully completed recognised
Foundation Program

UEC: 5Bs

SACE INTERNATIONAL:
(formerly known as South Australian
Matriculation - SAM)
5 subjects with ATAR of 55 (equivalent to
TER of 55), no subject below 10/20

HIGH SCHOOL CERTIFICATE (HSC):
Minimum 10 units with ATAR 55, no subjects
below 50

TERTIARY EDUCATION EXAMINATION (TEE):
5 subjects with a minimum aggregate of
279

CANADIAN PRE-UNIVERSITY:
Pass 6 subjects with average 55

AUSTRALIAN YEAR 12:
Average 55

NEW SOUTH WALES HIGHER SCHOOL
CERTIFICATE:
Pass in 5 subjects

MONASH UNIVERSITY FOUNDATION YEAR
(MUFY):
Minimum 60% in 4 subjects

INTERNATIONAL BACCALAUREATE (IB)
DIPLOMA:
Pass IB Diploma

MATRICULATION:
Pass Government Matriculation

DIPLOMA:
Having successfully completed recognised
Diplomas with CGPA 2.50 (if SPM 3 Credits)
or CGPA 2.0 (if SPM 5 Credits)

ENGLISH LANGUAGE REQUIREMENTS OR EQUIVALENT:

SPM CEFR: B2 or above

GCE-O-Level: C or above

UEC: A

TOEFL: 520/190/68

IELTS: BAND 6.5

MALAYSIAN UNIVERSITY ENGLISH TEST
(MUET):
Band 3.0

*Students who do not meet the English
Language requirements or equivalent are
required to take ENG099S (Fundamentals
of Writing) and pass with a minimum
Grade C. Students may take 2 subjects in
the SNHU degree programs together with
ENG099S with the advice from the Program
Coordinator. The 3 credits received from
ENG099S will not be counted in the "128
credits" required for graduation.

ACTUARIAL SCIENCE

Actuarial Science is the study of uncertain future events and the use of mathematics, statistics and financial theory to measure the financial consequences of risk. Actuaries work in all sectors of the economy, like insurance companies, banks and the government sector. Actuarial Science students are required to sit for a series of professional examination papers and fulfill practical training requirements via a North American professional actuarial body to obtain their professional certification. Outstanding INTI students have received scholarships from Drake University, the University of Nebraska-Lincoln and other universities to pursue a degree in Actuarial Science.

Professional examination

Students sit for a series of professional examinations in order to qualify as a Certified Actuary. The American Society of Actuaries (SOA) requires candidates to complete five examinations, an e-learning course, VEE validation and a professionalism seminar in order to become an Associate (ASA).

To become a Fellow (FSA), a candidate needs to successfully complete all requirements for ASA, 2 more examinations and 2 more modules based on their specialty track. The American Casualty Actuarial Society (CAS) requires a series of 9 examinations for certification as a Fellow. The first 4 examinations of these 2 societies are identical.

For more information regarding professional examinations, log on to www.soa.org, www.casact.org or www.actuaries.org.my

Students may also apply for membership with the Malaysian Insurance Institute in order to enjoy special privileges and access to information and resources.

Popular universities for Actuarial Science

US Universities

- Drake University
- Purdue University
- University of Central Oklahoma
- University of Illinois at Urbana-Champaign
- University of Iowa
- University of Nebraska-Lincoln
- University of Wisconsin, Eau Claire
- University of Wisconsin, Madison

Canadian Universities

- Acadia University
- University of Manitoba
- University of New Brunswick
- University of Waterloo

Sample curriculum for Year 1 and 2

- Business Communication
- Business Law
- Calculus with Analytic Geometry 1
- Calculus with Analytic Geometry 2
- Calculus with Analytic Geometry 3
- English Composition 1
- English Composition 2
- Essentials of Public Speaking
- Fine Arts Electives
- Financial Management
- Humanities Electives
- Introduction to Computers
- Introduction to Linear Algebra
- Introduction to Microeconomics
- Introduction to Macroeconomics
- Mathematical Statistics
- Natural Sciences Electives
- Principles of Accounting 1
- Principles of Accounting 2
- Principles of Marketing
- Social Science Electives

Offered at

INTI International College Subang

INTAKE: JAN, MAY & AUG

Duration

1+3 or 1.5+2.5 or 2+2 Years

BIOSCIENCES

Bioscience is a broad branch of the sciences concerned with living organisms, from micro-organisms to plant life and animals. Within this science are a number of smaller branches focused on specific issues pertaining to living organisms.

Popular majors/ partial list of majors available

BIOTECHNOLOGY

Biotechnology is a field of applied biology which uses living organisms such as plants, animals and microorganisms to make or modify products or processes for specific use. Some of its more commonly known terms are genetic engineering, artificial selection and hybridization. Biotechnology is widely used in medicine, engineering and agriculture fields to bring about improvements in food and medicines, treatments for diseases and even waste removal. There is also the emergence of “Industrial Biotechnology” with a growing market of products using bio-based materials and production techniques in industrial applications.

Companies such as Toyota, Dow Chemical, Procter & Gamble, DuPont and Cargill are in various R&D stages, all vying to be ahead in this new branch of technology.

BIOINFORMATICS

Bioinformatics derives knowledge from computer analysis of biological data. It is highly interdisciplinary, using techniques and concepts from informatics, statistics, mathematics, chemistry, biochemistry, physics and linguistics. Thanks to massive yearly funding, America is the best place to obtain a degree in this study.

BIOCHEMISTRY

Biochemistry is the application of chemistry to the study of biological processes at the cellular and molecular level. Biochemists study the mechanisms of brain function, cellular multiplication and differentiation, communication within and between cells and organs, and the chemical bases of inheritance and disease.

BIOMEDICAL SCIENCE

Biomedical Science is the study of health and assessing and analyzing methods of treating diseases. This major is suitable for students with a strong interest in biology and chemistry as well as an interest in the development of medical issues, either in research, health monitoring or treatment of a disease.

MICROBIOLOGY

In recent years, the field of microbiology has had a major impact upon virtually all other scientific disciplines. Subjects of study include bacterial genetics, anatomy and reproduction. Instructions cover such topics as cell biology, microbial genetics and laboratory methods.

MOLECULAR BIOLOGY

Molecular Biology is the basic science that seeks an understanding of life processes, the properties and functions of molecules that make up living cells, and how biomolecules operate and interact to drive the complex and diverse behaviors of living systems. The scope ranges from evolution and development to the regulation of gene expression.

Employment opportunities

- Research, Quality Control, Clinical Research, Information Systems, Manufacturing or Production & Marketing or Sales
- Employment in Universities, Research Laboratories, Government Sector, Pharmaceuticals or Bio-Related Firms
- Biocatalysts Discoverer Assistant, Laboratory Assistant Manager, Medical Writer, Research & Development, QA Development & Auditing, Positions in Public Health, Assistant or Technician in Pharmacology, Biochemistry, Biotechnology, Cellular Biology, Microbiology, Research, Developmental Biology, Molecular Biology, Epidemiology, Mycology, Research Virology, Genetics, Pathology & Toxicology
- Crime Laboratories, Specialized Private Laboratories, Law Enforcement Agencies, Forensic Laboratories, Research Scientist, Medical Laboratories, Medical Examiner Offices, Hospitals, or Private Firms & Universities

Popular universities for Biosciences

BUSINESS

Students who want to major in Business can choose to specialize in the following fields.

Popular majors / partial list of majors available

ACCOUNTING

This study deals with the preparation, analysis and verification of financial information for individuals or businesses. It also looks into budget analysis, financial & investment planning and IT consulting.

Employment opportunities

Auditing, Investment, Financial Services, Corporate Accounting or Financial Consulting

FASHION MARKETING

Study involves implementing sales strategies, analysis, and development of the fashion industry. It also covers buying, merchandising, inventory and cost control.

Employment opportunities

Fashion Buyer, Merchandiser, Retail Manager, Retail Wholesale Outlets

HUMAN RESOURCE MANAGEMENT

Study involves training & development, strategic staffing, labor & employment, managing organizational change, compensation & benefits, leadership & team building.

Employment opportunities

HR related fields such as HR Management, Training & Development, Recruitment or Compensation & Benefits

MANAGEMENT INFORMATION SYSTEMS (MIS)

MIS involves planning, coordination, direct research and design of computer-related developments for any organization. It also deals with information flow and coordinating installations of computer systems for smoother processes in business operations.

Employment opportunities

Information Technology Departments, Quality Control Management, Operations Management, Quality Analysis or Control Coordination

ENTREPRENEURSHIP STUDIES

This study emphasizes the many aspects of business for individuals who seek the challenge of creating and growing enterprises. Entrepreneurship Studies focuses on general business subjects but pays particular attention to capital management, product development, opportunity recognition, market research & feasibility, along with areas like technological commercialization, financial analysis, legal issues and human resource management. The aim of this study is to help students start a successful business from the ground up.

Employment opportunities

Start up your own business or enterprise, develop your family-run business, or work in organizations looking to grow their enterprise

INTERNATIONAL BUSINESS

This study explores different cultures, global business strategies, international marketing, management, trade, and regulations. This degree provides basic knowledge of business in an international environment.

Employment opportunities

Graduates can explore opportunities dealing with business matters on a global basis with multinational companies

MARKETING

Marketing involves the study of consumer behavior, satisfying their needs through advertising, promotions, market research, marketing strategies, sales, product development and public relations activities.

Employment opportunities

Advertising, Marketing Research, Merchandising & Promotion, Retailing or Sales Management

FINANCE

This study deals with the preparation of financial reports and direct cash management strategies.

Employment opportunities

Finance, Banks, Insurance, Securities Firms or Consumer Goods Companies

SUPPLY CHAIN MANAGEMENT

This study involves the integration of activities across companies to manage the flow of products, services, people and equipment, which transforms resources to design, purchase, produce and deliver high quality goods and services.

Employment opportunities

Retail & Wholesale Sectors, Information Technology Development, Logistics Operations & Supply Management, Operations Planning & Control or Transportation & Logistics Management

DIGITAL MARKETING

Digital Marketing is where traditional marketing meets the internet and other forms of new media, including mobile and video games. Covering a wide range of activities such as social network marketing, search engine optimization, viral marketing, web analytics, reputation management and experiment-based market research, Digital Marketing gives students a strong background in economics, marketing, public relations, social media applications and entrepreneurial skills, allowing them to create focused social media strategies as well as manage the social presence of people, products and organizations with social media tools.

Employment opportunities

Social Media Associate, Social Media Analyst, Social Media Specialist, Social Media Director, Online Marketer, Interactive Marketer, Social Network Administrator or Brand Relations Specialist

COMPUTER SCIENCE

Computer Science is an interdisciplinary field of study involving the design, testing, updating and maintenance of new computer application software and systems as well as the creation of innovative programs for problem-solving. Students will explore the interaction between modern computer science and related technologies in specialized areas of interest such as software development, systems management, computer networking, database design and programming.

With dynamic changes in the technological world, there is a need for knowledgeable and innovative graduates across industries such as businesses, education, and government organizations.

Popular majors / partial list of majors available

COMPUTER SCIENCE

This study involves the scientific and mathematical study of algorithms used in designing and building computers and their application in the development of actual computing systems.

Employment opportunities

Computer Scientist, Systems Analyst, Network / Systems Administrator and more

COMPUTER INFORMATION SYSTEMS

This study involves an overview of the design, development and operation of electronic data storage and processing systems, including hardware and software.

Employment opportunities

Analyst / Programmer, Software Developer, Systems Programmer, Network / Technical Support, Data Communications & Network Engineer, Control & Industrial Systems Developer

BUSINESS INFORMATION TECHNOLOGY

This study prepares individuals to apply software theory and programming methods to the solution of business data problems.

Employment opportunities

Business Analyst, Analyst Programmer, Consultant, Educator, Systems Analyst, Manager, Researcher, Database & Network Administrator

MULTIMEDIA DEVELOPMENT / SYSTEMS

This study provides students with the technical, creative, and business skills necessary to design, develop, market and manage digital media.

Employment opportunities

Broadcast Production, Animation, Corporate Communications, Marketing, Telecommunications, Advertising, Animation, Media Research & Production, Development of Learning & Teaching Materials or Desktop Publishing

COMPUTATIONAL BIOLOGY

Computational Biology concerns the development and application of data-analytical and theoretical methods, mathematical modeling and computational simulation techniques to study biological, behavioral and social systems. Solving biological and biomedical problems using mathematical and computational methods, Computational Biology is recognized as an essential element in modern biological and biomedical research.

Work in Computational Biology might range from analysis of genomic sequences to visualizing the activity of an animal's nervous system or modeling the responses of plants to changing environmental conditions.

Employment opportunities

Pharmaceutical Companies, Scientific Software Companies, Biotechnology Companies, Health & Research Institutes, Medical Laboratories, Research & Testing Laboratories / Institutions

SOFTWARE DEVELOPMENT / PROGRAMMING

This study involves the application of mathematical and scientific principles to the design, implementation, validation, and management of computers for mainframe and personal computers.

Employment opportunities

Software Engineer, Systems Project Manager, Systems Programmer, Systems Analyst, Software Developer, Systems Administrator, Consultant, Computer Systems Manager

MANAGEMENT INFORMATION SYSTEMS

This study involves the development and management of data systems and related facilities for processing and retrieving internal business information.

Employment opportunities

IT Analyst, IS Specialist, Applications Specialist, Web Solutions Specialist, Technical Consultant, Applications Consultant, IT / Management Consultant, Enterprise Systems Consultant, Solutions Architect / Applications Architect, IT Manager, MIS Manager, Project Manager or Data Analyst

CYBER SECURITY / INFORMATION ASSURANCE

Cyber Security or the Cyber Information Assurance major is designed to address the growing demand for expertise in defending critical infrastructure from threats and cyber-attacks.

The study includes risk and threat assessment for computer systems and data, development of prevention procedures and reaction to data and computer-related security breaches, computer system security plan documentation, configuration, testing and implementation of any security software and/or technologies and providing protection and disaster recovery to companies' business systems.

Employment opportunities

Corporate & Industrial Security, Law Enforcement, Government Intelligence Services, Banking & Finance, Information System Security, Network Security Manager, Network Security Analysts, Information Security Analyst, Software Engineering

ENGINEERING

With the advancement of technology, communication and healthcare, there is a great need for creative applications that can solve problems in our everyday lives and enhance our quality of life.

Engineering majors dominate the top ten highest-earning and most in-demand bachelor's degrees, according to a survey by the National Association of Colleges and Employers (NACE).

INTI's AUP prepares today's engineers to be the innovators of tomorrow.

Popular majors / partial list of majors available

AEROSPACE / AERONAUTICAL ENGINEERING

This study focuses on the design, development, manufacturing, and testing of new technology in aircraft, spacecraft, military defense, and space systems. It will appeal to students interested in new technologies in aviation, defense systems, space exploration, problem-solving, and improving aircraft systems.

Employment opportunities

Airline & Aircraft Companies, Aircraft Architecture, Space Studies & Engineering, Reach & Testing Services

CHEMICAL ENGINEERING

This study involves the development of products such as antibiotics, fertilizers, polymers, fabrics, petroleum, synthetic fuels and more. Students keen on improving our way of life will find this major appealing. They will learn to develop chemical products and processes to reduce pollution and other world-benefiting solutions.

Employment opportunities

Chemical, Electronic, Petroleum Refining, Paper, Other Related Manufacturing Industries, Research & Testing Services or Government Agencies

CIVIL ENGINEERING

This study involves the design and supervision of roads, buildings, tunnels, dams, bridges, airports and construction. It will appeal to students interested in problem-solving related to construction and/or development, and protecting natural and man-made environments.

Employment opportunities

Firms that provide Engineering Consulting Services aimed at developing designs for new construction projects and manufacturing

INDUSTRIAL ENGINEERING

This study deals with improving and increasing organizational productivity through the management of people, business organization, and technology. Industrial Engineers help build a link between management goals and operational performance.

Employment opportunities

Management Agencies, Business & Consulting Services

MECHANICAL ENGINEERING

This study involves the research, creation, design, development, manufacturing and testing of mechanical devices and conversion of energy of machines. It will appeal to students with an interest in the invention, design and manufacturing of machines, mechanical devices or systems.

Employment opportunities

Production Operations in Manufacturing, Maintenance, Transportation Equipment, Electrical Equipment, Instruments or Fabricated Metal Precuts

PETROLEUM ENGINEERING

This study involves the design, development and process of finding minerals, oils and natural gases. It will appeal to those interested in the design and improvement of systems used in gas and oil production.

Employment opportunities

Oil & Gas Extraction, Refinery Plants, Oil Companies, Independent Oil Exploration, Production or Service Companies

COMPUTER ENGINEERING

This study involves the research, design, development and testing of computer systems. It also includes the supervision of the manufacturing and installation of computers and computer-related equipment. It will appeal to students interested in computer languages, structure, programs, modeling and also hardware and software development.

Employment opportunities

Computer Industries, Manufacturing, Communication or Engineering Consulting Firms

ELECTRICAL / ELECTRONIC ENGINEERING

This study involves the design, development, testing and supervision of electrical and electronic equipment manufacturing. It will appeal to students with an interest in developing and working with electrical and electronic system designs.

Employment opportunities

Engineering & Business Consulting Firms, Industries that manufacture Electrical & Electronic Devices, Office & Industrial Machinery or Communication & Transport Firms

BIOMEDICAL ENGINEERING

Biomedical Engineering combines medical and biological studies with engineering analysis and design, with an emphasis on analyzing biological organisms as engineering systems and applying engineering approaches to clinical, biomedical research and medical problems.

By applying engineering methods such as robots for eye surgery, implantable defibrillators, artificial organs and tissues, prosthetics and the like, biomedical engineering aims to improve our quality of life.

Employment opportunities

Pharmaceuticals, Medical Devices, Artificial Organs, Prosthetics & Sensory Aids, Diagnostics, Medical Instrumentation, Medical Imaging, Medical Schools, Sports Medicine or Hospitals

BIOENGINEERING

Bioengineering refers to a discipline that works with living systems, including humans, plants and even microscopic organisms. Though this discipline may overlap slightly with Biomedical Engineering, Bioengineering applies principles of life sciences, mathematics and engineering to define and solve problems in the fields of biology, medicine and healthcare as well as areas of agriculture engineering and national defense.

Employment opportunities

Pharmaceuticals, Medical Devices, Artificial Organs, Prosthetics & Sensory Aids, Diagnostic, Medical Instrumentation, Medical Imaging, Medical Schools, Hospitals, Computer Modeling of Physiologic Systems, Biomaterials Design, or the design of agriculture-related devices & equipment

INTAKE: JAN, MAY & AUG

Duration

1+3 or 1.5+2.5 or 2+2 Years

Popular universities for Engineering

US Universities

- California State University, Fresno
- Illinois Institute of Technology
- Iowa State University
- Michigan State University
- Michigan Technological University
- Missouri University of Science and Technology
- Ohio State University
- Oklahoma State University
- Purdue University
- University at Buffalo
- University of Kentucky
- University of Michigan, Ann Arbor
- University of Minnesota, Twin Cities
- University of Nebraska-Lincoln
- University of Wisconsin, Madison
- West Virginia University Institute of Technology
- Wichita State University

Canadian Universities

- University of Manitoba
- University of New Brunswick
- University of Saskatchewan
- University of Windsor

Sample curriculum for Year 1 and 2

- Calculus with Analytical Geometry 1
- Calculus with Analytical Geometry 2
- Calculus with Analytical Geometry 3
- Circuit Theory 1, Lab
- Circuit Theory 2, Lab
- Differential Equations
- English Composition 1
- Engineering Graphics
- Engineering Mechanics 1 – Statics
- Engineering Mechanics 2 – Dynamics
- Engineering Economics
- Essentials of Public Speaking
- Fine Arts Electives
- General Chemistry 1, Lab
- General Chemistry 2, Lab
- General Physics 1, Lab
- General Physics 2, Lab
- Humanities Electives
- Introduction to Computers & Information Processing
- Introduction to Engineering
- Introduction to Fluid Mechanics
- Introduction to Linear Algebra
- Social Sciences Electives
- Thermodynamics

HEALTH AND APPLIED SCIENCES

People are becoming more conscious about their health, especially with increased life expectancy and improved quality of life. The demand for medical and health professionals is increasing and a wealth of career opportunities is available. 2020 Statistics from the Ministry of Health Malaysia indicate that the ratio of health professionals to the population was still low compared with developed countries.

Popular majors / partial list of majors available

MEDICAL TECHNOLOGY

Medical Technology involves the study of microorganisms through the examination of body fluids, tissues, cells, chemical content of fluids and blood samples. Medical technology professionals, also known as clinical laboratory scientists, perform routine and complex tests via sophisticated instrumentation to detect, diagnose and treat diseases as well as monitor new patients to ensure quality patient care.

Employment opportunities

- Medical Laboratories or Offices, Clinics, Blood Banks, Research & Testing Laboratories, Government & Public Health Agencies
- Occupations include Analytical Chemist, Bacteriologist, Blood Bank Technologist, Medical Technologist, Public Health Specialist, Microbiologist, Parasitologist, Toxicologist

NEUROSCIENCE

This study is a multidisciplinary field that includes psychology, computer science, statistics, physics and medicine in the scientific study of the nervous system and its components as well as functional activities at the molecular, cellular, system, behavioral and cognitive levels.

Employment opportunities

Medical Laboratories, Hospitals, Universities, Research & Testing Laboratories, Government & Public Health Agencies

FOOD SCIENCE AND NUTRITION

This is multidisciplinary study of food and the application of knowledge to the development of food products and processes, the preservation and storage of foods, and the assurance of food safety and quality. Nutritional Science also examines the effects of food components on the metabolism, health, performance and disease resistance of humans and animals, including the study of human behaviors related to foods.

Employment opportunities

Fitness Centers, Food or Pharmaceutical Companies, Public Health Agencies or Educational Institutions

DIETETICS

This study involves the planning of food and nutrition as well as supervising the preparation and serving of meals. Dietitians also help prevent and treat illnesses by promoting healthy eating habits, scientifically evaluating clients' diets and suggesting diet medications.

Employment opportunities

Schools, Clinics, Hospitals, Nursing Homes, Cafeterias, Food Manufacturing, Marketing, Advertising, Wellness Programs, Sports Teams, Supermarkets or Healthcare Facilities

NURSING

Jobs for nurses are abundant worldwide. The shortage of over 300,000 nurses worldwide is expected to grow to over 800,000 in the next 15 to 20 years. BSN (Bachelor of Nursing) is a four-year program that focuses on the practical applications of nursing and expands into the theoretical realms of patient care.

Employment opportunities

- Hospitals, Clinics, Physician Offices, Schools, Private Duty & Home Health
- Nurses also work in the legal arena as Consultants & Lawyers with a Nursing Degree, for Insurance Companies, as Clinical Researchers, Sales Representatives for Drug Companies & Medical Equipment Firms, or Teachers in Nursing Schools

NANOTECHNOLOGY

This study is the development of new devices, materials and structures that are well below the one micron size scale. Nanotechnology advances enable the development of fundamental building blocks in the electronics, photonics, and materials sectors, sensors, biomimetic and biocompatible platforms throughout the biomedical and health sector. The science explores the possibilities of detecting molecules of chemical warfare agents, creating a new generation of computer components, or making medical strides on the molecular level.

Employment opportunities

Electronics / Semiconductor Industry, Materials Science including Textiles, Polymers & Packaging, Auto & Aerospace Industries, Sports Equipment, Pharmaceuticals including Drug Delivery, Cosmetics, Biotechnology, Medical Fields, Optoelectronics, Environmental Monitoring & Control, Food Science including Quality Control & Packaging, Forensics, University & Federal Lab Research

ASTROPHYSICS

This study focuses on the theoretical and observational study of the structure, properties, and behavior of stars, star systems and clusters, stellar life cycles, and related phenomena. Astrophysicists interpret observational data with the laws of physics and mathematics and include areas in cosmology, plasma kinetics, stellar physics, convolution and non-equilibrium radiation transfer theory, non-Euclidean geometries, mathematical modeling, galactic structure theory and relativistic astronomy.

Employment opportunities

University Researcher, Research Equipment Designer, Planetarium Technician, Computational Astrophysicist, Solar Astronomer, Cosmologist, Planetary Scientist, Telescope Engineer, Support Astronomer, Professor

FORENSICS

This interdisciplinary study draws from chemistry, biology, agriculture, physics, psychology and law to apply techniques and principles of the natural and physical sciences to the analysis of evidence collected during criminal investigations. Students learn to perform tests on substances like glass, fiber, tissue, hair and body fluids. Some programs allow for a specialization in specific areas such as DNA, ballistics, blood or firearms.

Employment opportunities

Crime Laboratories, Specialized Private Laboratories, Law Enforcement Agencies, Forensic Laboratories, Research Scientists, Medical Laboratories, Medical Examiner Offices, Hospitals, Private Firms or Universities

MASS COMMUNICATION

A broad study of the ways in which information is conveyed through mass media to society, Mass Communication is generally divided into two forms of media: print and electronic. Print media includes magazines, newspapers and non-periodical publications such as posters, newsletters, brochures and annual reports. Electronic media includes television, radio, video and audio production. New Media, increasingly popular in the field of mass communication, refers to computer-generated audio and video production.

Popular majors / partial list of majors available

JOURNALISM

Journalism is a discipline of gathering, writing and reporting news, and more broadly, it includes the process of editing and presenting news articles. It applies to various media, including newspapers, magazines, radio, internet, digital photography and television. Journalists are expected to be at the scene of a story to gather information for their reports in the field. Reports are almost always edited in newsrooms, the offices where journalists and editors work to prepare news content. Developing investigative skills will lead to better research and reports.

Employment opportunities

Journalist, Broadcast Journalist, Film Director or Film Producer

ADVERTISING

Advertising involves the planning, creation, production and placement of advertisements (print) and commercials (broadcast). It includes the theoretical and applied aspects of advertising, and the design of both periodical and specialized publications. Advertising agencies are responsible for practically all newspaper and consumer magazine advertisements, outdoor and indoor displays, radio and television commercials, and advertisements that appear in professional, technical and business-to-business publications. They must create advertisements that persuade the public to buy a product.

Employment opportunities

Desktop Publishing Artist, Advertisement Producer, Advertisement Director, Editor or Scriptwriter

RADIO AND TELEVISION

(Broadcast Journalism)

This study examines the history, theory, criticism, and nuts-and-bolts production practices of radio, television and film. In short, students will learn how to create all manner of electronic media from scratch. The goal of any Radio and Television program is to prepare students for an entry-level position and, ultimately, a successful career in media.

Employment opportunities

Radio & Television Stations, Government Agencies, Public Relations, Non-governmental Organizations

MASS COMMUNICATION

This study concerns the practical application, structure, processes, aesthetics, responsibilities and effects of the mass media and the investigation of the role mass media has played, and continues to play in society and the individual. Mass Communication majors seek out how and why media reflects our social values, and how public policy draws boundaries for such mediums of communication. Students will understand and apply ethical principles that can be used to prevent and resolve potential conflicts and dilemmas in the operation of the mass media, and legal issues and regulations affecting mass communication.

Employment opportunities

A professional course in mass communication opens doors for a career in Films and Television, Publishing, Public Relations, Print & Broadcast Journalism, New Media, Integrated Communication, Strategic Public Relations, Editing, Direction, Filmmaking, Scriptwriting, or Production

PUBLIC RELATIONS

Public Relations are vital in every organization as it contributes to a firm's or institution's brand identity. It understands and places high value on the establishment of professional and interpersonal relationships. Students will develop decision-making, strategic management, and critical thinking abilities and acquire theoretical and research-based knowledge important for their success in the working world.

Employment opportunities

Public Relations Executive, Corporate Communications Executive

NEW MEDIA

New Media is a multidisciplinary study of emerging forms of media, digital information and technology, often combining it with traditional journalism studies. New media demands adapting to new technology and trends while still maintaining the traditional skills and work ethic of professional reporters, journalists, artists and designers.

Employment opportunities

On-demand News & Entertainment, Social Media & Online Networking, Computer Graphics & Animation, Multimedia & Interactive Design, Web Design & Production, Advertising Design, Virtual Environments, Game Design & Simulation, Advertising, Journalism, Promotion, Media Research

COMMUNICATION

Communication is the study of how and why certain messages influence individual and group behavior, how our reactions reflect underlying values of society, communication theories of monumental speeches, revolutionary political campaigns, radical social movements, and the trends in styles of news reporting. The focus will be on different forms of speaking and writing, strategies of speakers and writers, verbal and nonverbal messages, and forms of rhetoric, from classical Roman orations to modern day websites, film and television.

PSYCHOLOGY

Psychology is the study of the human mind and behavior. It explores the processes involved in normal and abnormal thoughts, feelings and actions. Psychologists conduct basic and applied research, test intelligence and personality, assess the behavior, mental functions and well-being of human beings, diagnose and provide treatment.

Research-based psychologists examine the cognitive, emotional, physical and social factors of human behavior whereas psychologists in applied fields focus on mental healthcare in hospitals, clinics, schools, private and government settings.

Popular majors / partial list of majors available

CLINICAL PSYCHOLOGY

Clinical psychologists assess and treat mental, emotional and behavioral disorders. They usually interview patients, give diagnostic tests, and may design and implement behavior modification programs. They provide patients the means to adjust to life, even helping medical and surgical patients deal with illnesses or accidents. Clinical psychologists usually work in counseling centers, hospitals, clinics or community centers.

COUNSELING PSYCHOLOGY

Counseling psychologists help people to accommodate to change and to deal with problems in their everyday lives using various techniques. They usually work in universities, counseling centers, and hospitals.

DEVELOPMENT PSYCHOLOGY

Development psychologists study the physiological, cognitive, and social development of human beings throughout life, and may also study developmental disabilities and their effects on the individual. Some specialize in behavior and disabilities during infancy, childhood, adolescence or changes during maturity or old age.

EDUCATIONAL PSYCHOLOGY

Educational psychologists concentrate on how effective teaching and learning can influence a student's motivation and classroom behavior.

SOCIAL PSYCHOLOGY

This is the study of how a person's mental life and behavior are shaped by interactions with other people. Social psychologists often work in market research and system design.

SPORTS PSYCHOLOGY

This field helps athletes with focus, motivation and dealing with the fear of failure in competition.

EXPERIMENTAL PSYCHOLOGY

Experimental psychologists work in universities and research centers to study the behavior processes of human beings and animals. Prominent areas of study include motivation, learning, attention, sensory & perceptual process, substance abuse and its effects, cognition, as well as genetic and neurological factors affecting human behavior.

FORENSIC PSYCHOLOGY

Psychological principles are applied to legal issues and a forensic psychologist's expertise is often essential in court. Some forensic psychologists are trained in both psychology and law.

INDUSTRIAL / ORGANIZATIONAL PSYCHOLOGY

Principles and research methods are applied to the workplace to improve productivity and quality of work. Industrial psychologists can be involved in researching management and marketing problems within an organization.

SCHOOL PSYCHOLOGY

School psychologists work directly with public and private schools to assess and counsel students, consult with parents and school staff and conduct behavioral intervention when appropriate. They often work to improve classroom management strategies and skills, parenting skills, deal with substance abuse, students with disabilities and gifted students.

Employment opportunities

This provides a strong background for students who wish to pursue advanced degrees and subsequent careers in Academic Psychology, Research, Clinical Psychology, Medicine & Law, Employment & Educational Counseling, Survey & Research, Social Work, Labor Relations or Management & Productivity Improvement, Rehabilitation Centers, Welfare Agencies, Health Education Institutions, Public Statistical Agencies, Business, Sales, Service Industries or in Administrative Support

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION 4+0

in collaboration with

This program focuses on Business Administration with concentrations in Business Administration, Finance, International Business and Marketing. It is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). It offers a top-notch business education with the opportunity to concentrate with a number of disciplines, enabling students to further tailor their studies. The academic programs are created with the real world in mind, so students are prepared to launch successful careers when they graduate.

Concentrations Available

Business Administration

The Bachelor of Science in Business Administration emphasizes interpersonal skills, strategic problem solving, and operational principles. Students will gain a strong, comprehensive business education, becoming resourceful and creative thinkers in diverse, professional environments.

Career opportunities

General Manager, Purchasing Manager, Administrator, Business Development Manager, Human Resource Manager, Recruitment Manager, Training Development Manager, Compensation Specialist and more.

Finance

If you have an analytical mind and like applying strategy to business situations, this will be the concentration for you. We provide our graduates with skills to develop the analytical and quantitative skills needed for corporate and individual financial management.

Career opportunities

Finance Manager, Credit Manager, Financial Analyst, Investment Analyst, Risk Management Manager, Stock Broker and more.

International Business

This concentration prepares graduates to work successfully with people from different cultures and backgrounds who may use different systems and currencies. We provide our graduates the exposure to gain expertise about the different cultural, monetary, marketing and management systems that they will encounter while conducting international business activities.

Career opportunities

Export Manager, International Business Manager, International Operations Manager, Regional Marketing Manager, Trade Relationship Manager and more.

Marketing

Marketing is a broad field that includes activities related to selecting, designing, packaging, pricing, advertising, selling, distributing and servicing products in the domestic and/or international marketplaces. Students are prepared to work in various areas of marketing, including retail management, professional sales purchasing, advertising, research, product/brand management, product distribution and customer relations.

Career opportunities

Brand Manager, Product Manager, Retail Manager, Marketing Communications Manager, Market Research Manager, Customer Service Manager and more.

Offered at

INTI International College Subang
(R/340/6/0670)(04/28)(MQA/FA8054)

INTAKE: JAN, MAY & AUG

Duration

4 Years

Sample of Study Plan

General Education Core

- Applied Finite Mathematics
- Applied Statistics
- College Composition I
- Introduction to Ethics
- Introduction to Information Technology
- Introduction to Sociology
- Macroeconomics
- Microeconomics
- Music and Meaning
- Professional Communication and Career Planning
- Public Speaking
- Sophomore Seminar
- Twentieth Century American Literature and Beyond
- Western Civilization Since 1500

Business Core

- Applied Marketing Strategies
- Business Law I

- Philosophy and Current Issues
- Community Service
- Bahasa Kebangsaan A*

International students

- Communicating in Malay 2
- Philosophy and current Issues
- Community Service

* For Malaysian students who do not have Credit in SPM BM

** Please consult the Head of Program for more options of electives. Students can earn a minor in Communication, Psychology or other business concentrations by utilizing their electives in their study plan

BACHELOR OF ARTS IN COMMUNICATION 4+0

in collaboration with

Communicating effectively with co-workers, clients and the public requires expertise in oral, written and visual communications. The curriculum at Southern New Hampshire University helps you develop and deliver key messages to diverse audiences. You will learn communication theory and industry concepts, and build public speaking, presentation and interviewing skills. You will also gain knowledge with courses in business communication, graphic design and public relations through courses and minors in advertising, film, journalism, information technology or marketing.

You will also be exposed to key foundation knowledge in all fields of Communication, thereby enabling you to select the specific area in Communication in your career or graduate studies. Minors in Psychology or Business are available to enhance your understanding in any of these fields.

Career Opportunities

Journalist, Editor, Media Planner/Consultant, Editor, Brand Manager, Corporate Communications Specialist, Public Relations Director, Educator, Foreign Correspondent Specialist, Training and Development Director, Media Relations Specialist, Publications Editor, and more.

Offered at

** Please consult the Head of Program for more options of electives. Students can earn a minor in Psychology or other business concentrations by utilizing their electives in their study plan

BACHELOR OF ARTS IN PSYCHOLOGY 4+0

in collaboration with

Psychology is the study of behavior and mind, embracing all aspects of conscious and unconscious experience as well as thought. With the Southern New Hampshire University's curriculum, you will become well-versed in major psychological concepts, human behavior and research methods. You will also develop critical thinking and communications skills important to communicating effectively in many formats.

This program offers flexibility as well as specific concentrations such as Child and Adolescent Development and Mental Health. You can opt for minors in Communication or Business to expand your career choices. Students will be able to participate in field experiences to enhance their knowledge through their internship. Students with the Bachelor of Arts degree will be able to continue their Masters program in Psychology (M.S. or M.A.), Social Sciences and other business disciplines (MBA) such as Human Resource and many others.

Concentrations Available

Child and Adolescent Development

Choose a career that lets you make a difference in the lives of children. By choosing the concentration in child and adolescent development, psychology majors gain an in-depth understanding on the unique physical, social, psychological and cognitive needs of young people. The program stresses experiential learning, so you will have plenty of opportunities to gain real-world experience by doing internship, a practicum or research and volunteer projects.

Mental Health

Mental health is about wellness rather than illness. It is a level of psychological well-being which includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. The Mental Health concentration at SNHU focuses on clinical aspects of psychology such as counseling and psychological evaluation. Students will gain experience and augmenting their classroom learning through field studies and internship.

HEAR WHAT OUR ALUMNI SAY

“I am extremely grateful to have been able to find a job one month after graduation, moreover, finding one amidst the pandemic and economic downturn. I believe this job will be a test of my abilities and I am sure that the work experience will help shape my professional pathway.”

JOWEI YEK

Won 4th place in the 2020 National Student Advertising Competition (NSAC), U.S.A
Digital Content Specialist at Amway, U.S.A
American Degree Transfer Program

“Right after high school, while my dad and I were exploring options, we came across INTI. From our experience, we really liked the staff at INTI, they were friendly and approachable. Most importantly, we learnt that INTI had far better relationships with American universities compared to other universities within the same vicinity.”

VINOADHAREN NAIR

Winner of the 2020 Upshaw Award for Excellence in Teaching
Lecturer at the University of Illinois, Chicago
American Degree Transfer Program

“INTI arranged a show for me on BFM89.9. From there, I managed to develop new relationships with many entrepreneurs and business professionals who are now my long term friends. I am now supported by multiple business networks and service providers.”

MARCUS TEOH ZHEN YE

Founder of LearnZBFM.com
American Degree Transfer Program

“My strong interest in quantitative data led me to choose actuarial science as a major, and I enrolled at INTI because of its twinning program that allowed me to transfer my credits to universities in America. I find an American degree more wholesome because I could take different electives whilst still pursuing my major, which eventually enabled me to graduate with four minors as well.”

ASHLEY TAN SUE LYN

Awarded as one of the 10 Marie Claire Amazing Women of Year 2018,
MBA Scholarship Winner, Business Owner
American Degree Transfer Program

“Majoring in Computer Science with a minor in Psychology was definitely helpful. The American education system allowed me to select a wide range of electives, which expanded my breadth of knowledge and allowed me to implement what I learnt at university into the different roles I play at CoinGecko.”

LEE TEIK MING

Founder of CoinGecko
American Degree Transfer Program
